*The Journal of General Psychology*, 2000, *127*(4), 460–462

# Index to Volume 127

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–112
Number 2 (April): 113–240
Number 3 (July): 241–336
Number 4 (October): 337–464

## AUTHOR INDEX

Anch, A. M., Powell, E., Bloom, C., Dyche, J., Faulkner, K., & Richter, R. R. *Locomotor analysis of the* taiep *rat.* 412–425.

Best, J. B. *The role of context on strategic actions in Mastermind.* 165–177.

Bhushan, B., Dwivedi, C. B., Mishra, R., & Mandal, M. K. *Performance on a mirror-drawing task by non-right-handers.* 271–277.

Burns, R. A., & Dunkman, J. A., Jr. *Ordinal position learning and remote anticipation.* 229–238.

Chau, A. W. L., Phillips, J. G., & von Baggo, K. L. *Departures from sensible play in computer blackjack.* 426–438.

Cheal, M. *Theme issue on visual attention, Part 3: Guest Editor's introduction.* 5.

Dickson, J., McLennan, J., & Omodei, M. M. *Effects of concurrent verbalization on a time-critical, dynamic decision-making task.* 217–228.

Dunlap, W. P., Brody, C. J., & Greer, T. *Canonical correlation and chi-square: Relationships and interpretation.* 341–353.

Ferraro, F. R. *Remarks of the in-coming Editor.* 245–246.

Gabbard, C., & Rabb, C. *What determines choice of limb for unimanual reaching movements?* 178–184.

Goolkasian, P. *Pictures, words, and sounds: From which format are we best able to reason?* 439–459.

Koshino, H., Boese, G. A., & Ferraro, F. R. *The relationship between cognitive ability and positive and negative priming in identity and spatial priming tasks.* 372–382.

Lippman, L. G., & Dunn, M. L. *Contextual connections within puns: Effects on perceived humor and memory.* 185–197.

Petersen, M. S., & Juola, J. F. *Evidence for distinct attentional bottlenecks in attention switching and attentional blink tasks.* 6–26.

Peynircioglu, Z. F., Thompson, J. L. W., & Tanielian, T. B. *Improvement strategies in free-throw shooting and grip-strength tasks.* 145–156.

Richards, A., Richards, L. C., & McGeeney, A. *Anxiety-related Stroop interference in adolescents.* 327–333.

Riopelle, A. J. *Are effect sizes and confidence levels problems for or solutions to the null hypothesis test?* 198–216.

*The Journal of General Psychology*, 2000, *127*(4), 460–462

Koshino, H., Boese, G. A., & Ferraro, F. R. *The relationship between cognitive ability and positive and negative priming in identity and spatial priming tasks.* 372–382.

Lippman, L. G., & Dunn, M. L. *Contextual connections within puns: Effects on perceived humor and memory.* 185–197.

Petersen, M. S., & Juola, J. F. *Evidence for distinct attentional bottlenecks in attention switching and attentional blink tasks.* 6–26.

Peynircioglu, Z. F., Thompson, J. L. W., & Tanielian, T. B. *Improvement strategies in free-throw shooting and grip-strength tasks.* 145–156.

Richards, A., Richards, L. C., & McGeeney, A. *Anxiety-related Stroop interference in adolescents.* 327–333.

Riopelle, A. J. *Are effect sizes and confidence levels problems for or solutions to the null hypothesis test?* 198–216.

Ryalls, B. O., & Smith, L. B. *Adults' acquisition of novel dimension words: Creating a semantic congruity effect.* 279–326.

Schroth, M. L. *The effects of type and amount of pretraining on transfer in concept formation.* 261–269.

Sharma, A. *Recall of television commercials as a function of viewing context: The impact of program-commercial congruity on commercial messages.* 383–396.

Shaw, J. I., Bergen, J. E., Brown, C. A., & Gallagher, M. E. *Centrality preferences in choices among similar options.* 157–164.

Shore, D. I., & Klein, R. M. *The effects of scene inversion on change blindness.* 27–43.

Uttal, W. R. *Summary: Let's pay attention to attention.* 100–111.

Weiler, E. M., Sandman, D. E., Janson-Pinto, J., Dange, A. J., Dember, W. N., Warm, J. S., & Nelson, W. T. *Ipsilateral loudness adaptation over multiple intensity levels.* 365–371.

Wenger, M. J., & Townsend, J. T. *Basic response time tools for studying general processing capacity in attention, perception, and cognition.* 67–99.

Wilson, C., Brocher, N., Copeland, A., Thornton, H., & Godfrey, J. *The effects of atropine and adrenergic antagonists on behavioral arousal in rats.* 249–260.

Worthen, J. B., Garcia-Rivas, G., Green, C. R., & Vidos, R. A. *Tests of a cognitive-resource-allocation account of the bizarreness effect.* 117–144.

Yates, M. C., McGahan, J. R., & Williamson, J. D. *Intuitive covariation assessment of the illusory correlation.* 397–411.

Zentall, T. R., & Riley, D. A. *Selective attention in animal discrimination learning.* 45–66.

Zimmerman, D. W. *Statistical significance levels of nonparametric tests biased by heterogeneous variances of treatment groups.* 354–364.

## TITLE INDEX

Adults' acquisition of novel dimension words: Creating a semantic congruity effect. *Brigette Oliver Ryalls & Linda B. Smith.* 279–326.

Anxiety-related Stroop interference in adolescents. *Anne Richards, Lucy C. Richards, & Anna McGeeney.* 327–333.

Are effect sizes and confidence levels problems for or solutions to the null hypothesis test? *Arthur J. Riopelle.* 198–216.

Basic response time tools for studying general processing capacity in attention, perception, and cognition. *Michael J. Wenger & James T. Townsend.* 67–99.

Canonical correlation and chi-square: Relationships and interpretation. *William P. Dunlap, Charles J. Brody, & Tammy Greer.* 341–353.

Centrality preferences in choices among similar options. *Jerry I. Shaw, Jon E. Bergen, Chad A. Brown, & Maureen E. Gallagher.* 157–164.

Contextual connections within puns: Effects on perceived humor and memory. *Louis G. Lippman & Mara L. Dunn.* 185–197.

Departures from sensible play in computer blackjack. *Albert W. L. Chau, James G. Phillips, & Karola L. von Baggo.* 426–438.

The effects of atropine and adrenergic antagonists on behavioral arousal in rats. *Christopher Wilson, Nicole Brocher, Alan Copeland, Heather Thornton, & Jonna Godfrey.* 249–260.

Effects of concurrent verbalization on a time-critical, dynamic decision-making task. *Janet Dickson, Jim McLennan, &*

*Mary M. Omodei.* 217–228.

The effects of scene inversion on change blindness. *David I. Shore & Raymond M. Klein.* 27–43.

The effects of type and amount of pretraining on transfer in concept formation. *Marvin L. Schroth.* 261–269.

Evidence for distinct attentional bottlenecks in attention switching and attentional blink tasks. *Matthew S. Petersen & James F. Juola.* 6-26.

Improvement strategies in free-throw shooting and grip-strength tasks. *Zehra F. Peynircioglu, Jennifer L. W. Thompson, & Terri B. Tanielian.* 145–156.

Intuitive covariation assessment of the illusory correlation. *Mark C. Yates, Joseph R. McGahan, & J. David Williamson.* 397–411.

Ipsilateral loudness adaptation over multiple intensity levels. *Ernest M. Weiler, David E. Sandman, Jennifer Janson-Pinto, Anjali J. Dange, William N. Dember, Joel S. Warm, & W. Todd Nelson.* 365–371.

Locomotor analysis of the *taiep* rat. *A. M. Anch, E. Powell, C. Bloom, J. Dyche, K. Faulkner, & R. R. Richter.* 412–425.

Ordinal position learning and remote anticipation. *Richard A. Burns & John A. Dunkman, Jr.* 229–238.

Performance on a mirror-drawing task by non-right-handers. *Braj Bhushan, C. B. Dwivedi, R. Mishra, & Manas K. Mandal.* 271–277.

Pictures, words, and sounds: From which format are we best able to reason? *Paula Goolkasian.* 439–459.

Recall of television commercials as a function of viewing context: The impact of program-commercial congruity on commercial messages. *Andrew Sharma.* 383–396.

The relationship between cognitive ability and positive and negative priming in identity and spatial priming tasks. *Hideya Koshino, Glenna A. Boese, & F. Richard Ferraro.* 372–382.

Remarks of the in-coming Editor. *F. Richard Ferraro.* 245–246.

The role of context on strategic actions in Mastermind. *John B. Best.* 165–177.

Selective attention in animal discrimination learning. *Thomas R. Zentall & Donald A. Riley.* 45–66.

Statistical significance levels of nonparametric tests biased by heterogeneous variances of treatment groups. *Donald W. Zimmerman.* 354–364.

Summary: Let's pay attention to attention. *William R. Uttal.* 100–111.

Tests of a cognitive-resource-allocation account of the bizarreness effect. *James B. Worthen, Gabriella Garcia-Rivas, Charles R. Green, & Rebecca A. Vidos.* 117–144.

Theme issue on visual attention, Part 3: Guest Editor's introduction. *MaryLou Cheal.* 5.

What determines choice of limb for unimanual reaching movements? *Carl Gabbard & Casi Rabb.* 178–184.
